

TECHNICAL WORKING-GROUP MEETINGS

July 2023

Thursday 6 : Maintenance in Operational Conditions

August 2023

Tuesday 29 : Industrial Transmitters and Networks

Beware of possible subsequent changes.

A regularly updated calendar is available on www.exera.com
 The members of Namur, EI, WIB or CLUI AS who wish to attend one
 of the meetings are welcome to contact the office:
 Tel: +33 1 53 32 80 08 – E-mail: contact@exera.com

ONGOING OPERATIONS

- Jan. 2021 Evaluation of 5 open-path flammable gas detectors.
- May 2021 Development of an online database on safety instrumented system incidents.
- June 2022 Evaluation of accelerometers in 4 smartphones and 2 acceleration data acquisition and processing apps.
- Jan. 2023 Evaluation of 7 surface temperature probes [0°C to 100°C] in gas or liquid fluids.

UPCOMING OPERATIONS

Creation of a drafting guide for the "digital security" component of a consultation file for the acceptance audit of industrial facilities.

Evaluation of flame ignition detectors.

Evaluation of smartphone applications for angle and distance measurements.

Evaluation of flow meters for small flows of specific gases.

Manufacturers and distributors who are interested in participating in these operations are invited to contact the office:
 +33 1 53 32 80 01 - contact@exera.com

UPCOMING EVENTS

- **Technical Day « Cybersecurity of industrial systems »**
 Registrations open to all (members and non-members)
 September 28, 2023, in Paris (75)
- **"Expert Centre" Day at Engie**
 Registration open, only for members of Exera
 October 5, 2023, in Stains (93)
- **"Manufacturer" Day at Schneider Electric**
 Registration open, only for members of Exera
 October 17, 2023, in Rueil-Malmaison (92)
